

The Heart Seat

1. The secret of the inner sun, the solar plexus, heart seat.
2. The woman holds the key to your genetic future from her genetic past of four generations.
3. She has the Mitochondrial DNA, your bloodline stories.
4. This is why I speak of the present woman and four males counterparts.
5. I am also speaking about the past four generations of women in her family and the males they exchanged body fluids with such as his semen, sperm and testosterone.
6. So, the present you as a female have to protect your family line, your Mitochondrial DNA and that means the only male nuclear **DNA** in your body is from your father at birth.
7. Once you grow to womanhood the only male testosterone that should flow through your person should be from your father and his past four generations; yet being a **XX** female your feminine should dominate your genes.
8. So, you have behind your heart gland the central sun, your heart seat,
9. Plugged into it is the solar plexus, heat of life and emotions of your being.
10. You have four chambers to your heart.
11. This is symbolic of your being, feelings, love, emotion and family and how you effect the future.
12. If you have one other male in your life, as a mate and you digest, consume or absorb his body fluids, only that would replace your father's **XY**.
13. His **Y** will dominate your father's.
14. It will still be a part of your past; yet, this is the making of your future of your feminine blood line.
15. So, your first chamber of your heart seat is shared with the love of your father and the love of this new **XY** male your mate, consort, husband.
16. Soul-ar-plexus male, Soul mate.
17. So, the inner sun's light is still burning bright and is even seen in your eyes and on your face when you look at that man you love and your physical body reacts to his presence when around you.
18. You're still a whole female deity with full Mitochondrial DNA power.
19. If you break up with this first or second man in your life, first father second mate and your love life returns to the first, you're changed because you took in your second males **XY'S Y**, his seed.
20. His semen, sperm and his male testosterone, his male hormones and that has become part of you and your future **DNA**-wise.
21. And if you meet a third male and become attracted to him, and engage in sexual acts with him and your body takes in his **XY** male hormones, testosterone semen and sperm.
22. Then, a new war begins in your body.
23. The male hormones fight your female hormones.
24. This is why when a male or female decides to try and change genders they have to take pills and shots of the opposite sex to have physical and mental change.
25. Well this also happens to you when you as a **XX** female take in many mates, **XY** into your body.
26. You change and depending on how many by age **46**, you have internal changes you don't even realize.
27. Your mind, body and spirit all become more masculine than feminine.

28. By the time you have taken in four men, your inner feminine solar light is dimmer and dimmer.
29. You no longer know how to love or truly feel, devotional love or true emotional love.
30. You have taken in too many **Y** chromosomes and hormones and testosterone of males.
31. This is why you have to protect and teach your daughters how they affect your family future by her **Mitochondrial DNA**.
32. In the west, they the children of the devil and their daughters taught you to “swallow” as something good for your skin.
33. They lied to you.
34. Oral sex is from them and does affect your body just as is said, you are what you eat and drink.
35. One and only one male, your soul mate that is okay for whatever kinds of sex.
36. Yet, multi-males in your life have affected your Mitochondrial DNA and your family’s future, what was in each male’s history, is now in your history that includes sickness, diseases and even insanities.
37. The western world and their lack of morals, free open sex with whomever, has affected our whole **Salal** “*Race*” by getting the cursed seed of their women genetic markers, mark of the beast while their woman is ever ready to drink a black males divine seed.
38. So, this is what I meant by more than three males and your divine light dims and go out.
39. You have confused your inner divine female deity.
40. So, you were mis-lead by the seed of the devil.
41. Don’t make that same mis-take with your daughters.
42. Teach them this message from your ancestors.
43. Protect our divine seed if you wish to travel the stars to return home above.
44. Once you have lost your pure, holy, divine seed by having more than three males in your DNA, can you regain you divine, pure, holy seed before you leave this life?
45. Yes, you can.
